

SKILLS

HTML, CSS, Sass, JavaScript, TypeScript, Node.js, React, Redux, NestJS, MongoDB, MySQL, GraphQL, NPM, Yarn, Git, GitHub, Express.js, AWS, Docker, Serverless, Java, Spring Boot, Maven

EXPERIENCE

Head of Backend - EngagED S.A

April 2021 - Present

Participated in nearly all aspects of a serverless API's data structure, endpoints, and systems for a SaaS, white-label, all-in-one education platform, which positively impacted hundreds of thousands of students.

- Developed class and course management features with customizable questionnaires that provided better user progress assessment.
- Implemented event-driven enrollment denormalization with AWS SQS for fast, streamlined data, along with scheduled jobs using agenda and lambda functions.
- Designed/implemented payment solutions, including Checkout, Affiliation system, Subscription, Payment Schedule, Payment Link, KYC and Payment API gateway.
- Implement File storage with Filestack and AWS S3.
- Connected integration tools such as GTM and Meta Pixel.
- Integrated customizable certificate template builder with import, manual and automated generations.
- Developed lighting fast 1:1 course/chapter/lesson copying functionality.
- Implemented Report exports, and data imports for quick document insertion.
- Collaborated with DevOps on scalability improvements.

PROJECTS

Quaestio - Questionnaire Platform

2025

Features: 5 question types, color personalization options, metrics, feedback options, questionnaire correction.

Tech Stack: HTML, CSS, SASS, JavaScript, TypeScript, NestJS, MongoDB, NodeJS, Yarn, React, GraphQL, AWS SQS, AWS Lambda, Serverless

Fórum Players - Community-driven Forum

2021

Features: Authentication, validation, search, moderation system, private messages, quote notification, like/dislike and BB Code.

Tech Stack: HTML, CSS, JavaScript, MongoDB, NodeJS, NPM, ExpressJS, React, Redux

EDUCATION

Analysis and Systems Development

2020

Federal University of Paraná (UFPR)
